Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Furthermore TracFone is for me the only way to "opt out" of the current mess our Telephonic Communication system in the US.

Before adding onto the current charges, it is my opinion that the FCC should get on the ball and try to understand where some of the outlandish charges are being made on the consumer by the Local and National communication companys.

In the near future I plan to use the TracFone sysytem as my main source of communication if these charges continue to mount.

Greg Murphy

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
